YOSR ISMAEEL MAHMOUD ELREFAAI

FRONTEND DEVELOPER

Location: Sidi Bishr, Alexandria, Egypt | **Phone**: (+20) 1097574515
Email: yousser00@gmail.com
LinkedIn | **Portfolio** | **GitHub**

Dynamic frontend developer with 2+ years of experience building responsive, user-centric web applications. Proficient in modern JavaScript frameworks, CMS platforms (WordPress/Odoo), and SEO optimization. Passionate about performance-driven design and collaborative problem-solving.

EDUCATION

Bachelor's Degree in Computer Science | Alexandria University
(Graduated 2023) | GPA: 3.19/4.0

- Specialization: Healthcare Analysis

CERTIFICATIONS

- **Certificate of Appreciation**, African Forum for Innovation & Technology (2021)

PROFESSIONAL EXPERIENCE

Front-End Developer
Wingital, March 2026 – Present

- Worked as a front-end developer building and maintaining React.js projects.
- Developed and customized WordPress websites for client projects.
- Acted as Product Manager for mobile app projects, coordinating product requirements and delivery.

Instructor
Technospace, December 2025 – Present

- Delivered programming courses, teaching students core coding concepts and practical development skills.

Front-End Developer Trainee
Techcell, June 2025 – July 2025

- Successfully completed an intensive training program focused on modern front-end development technologies, including HTML5, CSS3, JavaScript (ES6+), and responsive web design principles.
- Built interactive, real-world UI components and layouts following mobile-first and cross-browser compatibility standards.
- Strengthened core front-end skills through hands-on projects, code challenges, and peer code reviews.
- Applied version control using Git and collaborated on mock development tasks simulating real-world workflows.
- Gained exposure to front-end best practices, performance optimization, and accessibility guidelines (WCAG).

Front-End Developer
Iconsult, April 2024 – February 2025

- Designed, developed, and maintained responsive user interfaces using Odoo frameworks, ensuring performance, cross-browser compatibility, and mobile responsiveness.
- Collaborated closely with back-end developers and UI/UX designers to implement intuitive and scalable solutions.
- Optimized front-end components for speed and usability, applying best practices in code structure and modularity.
- Participated in sprint planning, code reviews, and QA testing to deliver high-quality deliverables on time.

Part-Time Front-End Developer
WPBetter, August 2024 – October 2024

- Created and customized WordPress websites using Elementor and Kadence Builder, focusing on user experience and aesthetic design.
- Implemented mobile-first design principles to ensure optimal performance across devices.
- Carried out performance optimization, reducing page load time and improving Core Web Vitals.
- Handled plugin integration, troubleshooting, and bug fixing to maintain consistent site functionality.

WordPress Developer
Tawasol Business Administration, June 2023 – April 2024

- Designed, developed, and maintained custom WordPress themes and plugins tailored to client requirements.
- Focused on SEO optimization using tools such as Yoast SEO and SEMrush, leading to measurable improvements in search rankings.
- Performed website audits, usability testing, and analytics integration to enhance user experience and engagement.
- Ensured security best practices by implementing regular updates, backups, and monitoring tools.

Web Development Trainee
Information Technology Institute (ITI), November 2022 – December 2022
- Completed a focused training program in Java, OOP, and full-stack web development principles.
- Developed hands-on projects simulating real-world applications using MVC architecture.

Web Development Intern
ERA Solution, August 2022
- Assisted in the development of web applications using modern technologies and frameworks.
- Contributed to project planning sessions and code debugging within a collaborative agile environment.

Web Development Intern
Techno Space, July 2021 – October 2021
- Participated in software development lifecycle stages from design to deployment.
- Supported team members in writing clean, reusable code and integrating third-party APIs.

Software Development Intern
Medical Research Institute, August 2021
- Supported basic software development and data management tasks within a research-focused environment.
- Gained experience working with structured datasets and building data-driven tools under supervision.

TECHNICAL SKILLS

Front-End Development
- **Languages**: HTML5, CSS3, JavaScript (ES6+)
- **Frameworks & Libraries**: React.js, Bootstrap, Tailwind CSS
- **Responsive Design**: Flexbox, CSS Grid, Media Queries

Back-End & Programming
- **Languages**: Python, Java, C++, PHP
- **Object-Oriented Programming (OOP)**: Proficient in Java OOP principles
- **Version Control**: Git, GitHub

UI/UX & Design
- **UI/UX Principles**: Wireframing, user-centered design
- **CMS**: WordPress

SEO & Analytics
- **SEO Tools**: SEMrush, Yoast SEO
- **Web Analytics**: Google Analytics, Google Search Console, Google Tag Manager

Additional Skills
- Web Performance Optimization
- Debugging & Troubleshooting

CORE COMPETENCIES

Frontend Development Expertise
- Proficient in HTML5, CSS3, JavaScript (ES6+) for building dynamic, interactive web interfaces.
- Strong experience with React.js, Bootstrap, and Tailwind CSS for modern, responsive UIs.
- Skilled in responsive design using Flexbox, CSS Grid, and Media Queries.
- Knowledge of state management, component-based architecture, and performance optimization.

Web Development & CMS
- Hands-on experience with WordPress, including Elementor and Kadence Builder for rapid website development.
- Familiarity with Odoo for scalable frontend solutions in business applications.
- SEO optimization using Yoast SEO, SEMrush, Google Analytics, and Search Console.

Programming & Technical Skills
- Languages: JavaScript (ES6+), Java (OOP), Python, PHP, C++.
- Version Control: Git, GitHub for collaborative development.
- UI/UX Principles: Wireframing, user-centric design, and debugging.
- Web Performance Optimization: Improving load times and efficiency.

LANGUAGES

- **Arabic**: Native Proficiency
- **English**: Professional Working Proficiency (Fluent)
